Church Converts to Energy Saving Benefits of LED Lighting from MaxLite

The First Baptist Church of Bethalto, Illinois was looking to update its facility with improved lighting that provided energy savings. The 25,000-square-foot building and exterior were lit by an aging system of fluorescent and metal halide fixtures that had become prohibitively expensive and labor intensive to maintain. Converting to LED was the ideal solution because of its lower energy consumption and longevity. Working with local representative agency Cool City Lights, the church replaced the lighting throughout the property with MaxLite LED lamps and fixtures.

The most dramatic transformation occurred on the exterior of the building, where many of the fixtures were no longer functional. Six 400-watt metal halide pole-top fixtures in the parking lot were replaced with QuadroMAX, MaxLite's universal and scalable outdoor luminaire, in a 160-watt, 5000K configuration. Delivering exceptional efficacy of 110 lumens per watt, QuadroMAX can be customized for virtually any type of outdoor lighting application by applying one of eight different mounting arms to a universal body to create a canopy, area, flood or wall pack luminaire.

Photos by Scott Evers

"We were very pleased with the lighting upgrades. The biggest improvement was in the parking lot. Previous dark spots have been eliminated, and the safety of those coming and going from the Church has improved."

- Tom Howland, Trustee,
First Baptist Church

Use QuadroMAX for virtually any type of outdoor lighting application.

Quickest Turnarounds

We keep the QuadroMAX in stock and just add the mounting part you need. This means customers can order a specification-grade, customizable fixture that ships in the same amount of time as a standard product.

Best-In-Class Protection

The QuadroMAX is engineered with state-of-the-art LEDs and 20KV surge suppression to protect the fixture from power surges. A maintenance-free lifetime of 100,000 hours, limited ten-year warranty and lifetime customer support make the QuadroMAX the smart choice for converting lighting systems to the energy- and cost saving benefits of LED.
